

Needs Assessment Worksheet

Please fill out the following worksheet to assist us in developing a program that will best address your specific needs. The worksheet can help organize our investigation, to methodically explore what your learning objectives may be and what will be the best environment in which we can explore experientially potential solutions as well as obstacles to success. We will also be able to come up with a preliminary agenda and price. This is the first part of our journey together on the Map of Awareness. If you have any question or would like assistance please give us a call at 805 798-3427.
